

Voyage

Product Description

With a proprietary Accessory Rail mounting device designed by JRB Studio, Voyage is a Light Corp Personal Task light that, with just a one-handed movement, puts highly efficient light exactly where you want it. The sleek linear aesthetics, full articulation, soft touch dimming, a 10-hour auto turn-off, and an optional integrated occupancy sensor combine to create a highly functional and elegant task light. Voyage is the perfect accessory for your JRB Studio worksetting.
