ANIMATE+ do the math

The plus in Animate+ means it's all about adding.

Animate+ starts with an award winning height-adjustable table, and it adds highly flexible components that create a variety and wide-array of worksetting configurations.

Then add the industry-leading ability to deliver sit-to-stand workspace height adjustability for everyone in the office. Not just a table here and there.

Then add the planning versatility to create touch-down stations, benching applications, individual worksettings, collaborative team spaces, media sharing settings, and private offices. All from one product portfolio... Animate+

Then add the agility to easily reconfigure those same workspaces, using flexible and nonstructural components. A small kit of parts creates big changeability.

Finally, add the economics... do all this without paying a premium for providing height adjustability throughout your workplace. You get healthy, high-performance worksettings with paybacks in productivity.

Animate+... it all adds up.
